## How It Works with a VCC

The PPLI policy holds the VCC shares, meaning the UHNW investor does not directly own the VCC, preventing Indonesian tax attribution.

Gains within the PPLI are not subject to annual reporting in Indonesia.

Upon death, the insurance payout is tax-free for beneficiaries.

# PPLI Table of Benefits

<b>Tax Deferral</b>	<b>Investment gains grow tax-free inside the policy, avoiding Indonesian annual tax reporting.</b>
<b>Bypasses Indonesian CFC Rules</b>	PPLI is classified as an <b>insurance product, not an investment</b> , so it avoids <b>Controlled Foreign Corporation (CFC) taxation</b> .
<b>Capital Gains &amp; Income Tax Mitigation</b>	Income generated within the policy <b>is not directly taxed</b> .
<b>Asset Protection</b>	Held within an insurance framework, shielding assets from <b>creditors and legal claims</b> .
<b>Confidentiality</b>	Policy ownership details are <b>not publicly disclosed</b> .
<b>Tax- Efficient Withdrawal</b>	Potential for tax-efficient distributions depending on jurisdictional tax treaties.

# Singapore Trust

## Why Use a Trust?

---

Wealth Succession: Ensures smooth intergenerational transfer without probate.

---

Additional Tax Protection: Separates legal ownership from beneficiaries, reducing exposure to Indonesian inheritance tax.

---

Confidentiality: Trust deeds are private and not subject to public disclosure.

---

Governance Control: Family governance mechanisms can be embedded into the structure.

# Trust Table of Benefits

Key Benefits	
Wealth Succession Planning	Ensures structured, <b>multi-generational wealth transfer</b> .
Legal Ownership Separation	Helps <b>mitigate personal tax liability</b> by ensuring assets are legally held by the trust.
Confidentiality & Asset Protection	Trust structures are <b>private</b> and shield assets from litigation risks.
Avoids Forced Heirship Rules	Offers flexibility in estate distribution, unlike Indonesian inheritance laws.

# Additional considerations for Indonesian Tax Compliance

## ✓ Use Singapore's Tax Treaties

- Singapore has favourable tax treaties that can reduce withholding tax on global investments.

## ✓ Indonesian Tax Residency Considerations

- If structured correctly, income earned within the VCC is not attributed to the investor for Indonesian tax purposes.
- Under Indonesian CFC rules, a properly structured VCC + PPLI setup helps mitigate tax exposure.

## ✓ Reporting Requirements

- Although Indonesia has Common Reporting Standard (CRS) obligations, a PPLI policy may not be directly reportable.
